## The Bridge of Japan between Indonesia and Bangladesh

### Support of Japan tour for Indonesia government official

At September, From Indonesian Kutai District of East Kalimantan six official's dignitaries have been come to Japan. Kutai district has own natural resources. Their resources are Coal and Bio Fuel. Their Visit objective was to do the market research for selling their resources to Japan. They met several biggest Japanese companies' officials such as Itochu Corporation, Sumitomo Forest Company, IHI Company and Panasonic Corporation. They also visited to Tokyo chamber of commerce. Kutai district official's whole business tour has been arranged and supported by AAI Company Ltd.

At October, SME minister and adviser of the Republic of Indonesia Mr. Taufik and seven more officials have been visited to Japan. The minister and officials from Small and medium-sized companies and union organizations have been visited the One Village One Product Movement which operate in the Oita Prefecture.

Indonesian officials were very interested to implement One Village One Product to Indonesian village. This tour was very successful and tour has been organized and supported by AAI Company Ltd.

At October, AAI company ltd did presentation about Bangladesh which has been organized by Fukuoka Asia Business center.
